

# Free Fly Breeze Vent Short 7" – Gear Review

## Overview

The Free Fly Breeze Vent Short 7" is built for hot-weather adventures where breathability, mobility, and comfort are paramount. Designed for hiking, fishing, travel, running, and casual wear, the Breeze Vent uses an ultralight perforated stretch fabric that promotes airflow while maintaining durability and quick-drying performance.

## Weight

- Fabric Weight: **124 GSM**
- Actual garment weight is not published by Free Fly. Based on comparable lightweight shorts, a men's medium is estimated at approximately **150–170 g (5.3–6.0 oz)**.

## Key Specifications

- Inseam: 7 inches
- Fabric: 86% Recycled Polyester / 14% Elastane
- Fabric Weight: 124 GSM
- Stretch: 4-way stretch
- Finish: PFAS-free DWR treatment
- UPF 40+ sun protection
- Secure rear zippered pocket
- Adjustable elastic waistband
- Best Uses: Hiking, fishing, travel, running, casual wear

## Comfort & Breathability

The Breeze Vent's defining feature is its body-mapped perforated fabric. The material allows exceptional airflow and cooling in hot and humid conditions while remaining soft and highly flexible. The moisture-wicking waistband further improves comfort during high-output activities.

## Trail & Travel Performance

The lightweight fabric dries quickly after rain, sweat, or water exposure, making the shorts ideal for travel, fishing, boating, and warm-weather hiking. The casual appearance transitions easily from trail to town.

## Pocket Design

A secure rear zippered pocket provides storage for keys, cash, or cards while maintaining a streamlined profile. The front pockets remain deep enough for everyday essentials.

## Durability

While exceptionally lightweight, the stretch woven fabric has proven durable for everyday outdoor use. The PFAS-free DWR finish adds light water resistance without affecting breathability.

## Pros

- Extremely breathable construction
- Lightweight and quick drying
- Comfortable elastic waistband
- Excellent stretch and mobility
- UPF 40+ sun protection
- Versatile for hiking, travel, fishing, and casual wear

## Cons

- Actual garment weight not published
- Limited storage compared to cargo-style shorts
- Less abrasion resistant than heavier hiking shorts

## Best For

Hot-weather hikers, anglers, travelers, runners, and outdoor enthusiasts seeking maximum ventilation and comfort.

**Editor's Rating: 9.2 / 10**

The Free Fly Breeze Vent Short is one of the most comfortable hot-weather shorts available. Its exceptional breathability, stretch, quick-drying performance, and lightweight feel make it a standout choice for summer adventures.
