

Mammut Ducan Shorts – Gear Review

Overview

The Mammut Ducan Shorts are lightweight technical hiking shorts designed for spring and summer hiking, trekking, travel, and fast-moving mountain adventures. Featuring a durable recycled polyamide fabric, 4-way stretch construction, ripstop reinforcements, and an athletic fit, the Ducan Shorts strike an impressive balance between low weight and durability.

Weight

- Published Weight: **190 g (6.7 oz)**
- Independent retailer weights range from approximately 196–220 g (6.9–7.8 oz) depending on size.

Key Specifications

- Weight: 190 g (6.7 oz)
- Fabric: 85% recycled polyamide, 15% spandex
- Fit: Athletic Fit
- Stretch: 4-way stretch construction
- Pockets: Two zippered front pockets and one harness-compatible zippered thigh pocket
- Features: Ripstop reinforcement, moisture-wicking finish, gusseted crotch, belt loops
- Best Uses: Hiking, trekking, travel, fastpacking

Comfort & Mobility

The high-spandex content and gusseted crotch provide exceptional freedom of movement on steep trails, scrambling routes, and during active travel. The athletic fit remains streamlined without restricting movement.

Breathability

The lightweight fabric dries quickly and manages moisture effectively during warm-weather activities. The shorts remain comfortable during long hikes and high-output efforts in hot conditions.

Durability

Ripstop panels placed in high-wear areas improve abrasion resistance while maintaining low weight. The polyamide construction feels robust enough for demanding trail use without becoming heavy or stiff.

Pocket Design

The two zippered front pockets and harness-compatible thigh pocket provide secure storage for essentials such as a phone, keys, snacks, or trail maps. The thigh pocket is particularly useful while wearing a climbing harness or backpack hip belt.

Pros

- Lightweight at just 190 g (6.7 oz)
- Excellent stretch and mobility
- Quick-drying fabric
- Durable ripstop reinforcement
- Secure zippered pockets
- Versatile enough for hiking, travel, and everyday wear

Cons

- Premium price point
- No rear pocket
- Front pocket zippers can feel restrictive when used as hand pockets

Best For

Hikers, trekkers, fastpackers, travelers, and outdoor enthusiasts seeking lightweight technical shorts that combine durability, comfort, and mobility.

Editor's Rating: 9.3 / 10

The Mammut Ducan Shorts are among the better lightweight hiking shorts currently available. Their combination of 190 g weight, excellent stretch, durable construction, and mountain-ready pocket design makes them a standout choice for warm-weather hiking and travel.
